Our Story

Since 1958, our members have supported local students and families, helped build and improve community spaces, planted trees, provided scholarships and backpacks, supported food programs, volunteered with local organizations, and reached beyond Clifton Park through humanitarian projects around the world.

And along the way, we've made some pretty good friends.

In October 2025 the **Shenendehowa Park Rotary Club**, became the **Clifton Park Rotary Club** to better identify with the community we live in. We're looking forward to the next generation of neighbors who want to get involved.
